

## Web sites

We believe in ease of use when it comes to web site design which is why we develop web sites that you can manage without any necessary skills in programming what so ever...

We use one of the most powerful Open Source Content Management Systems (CMS) on the planet. It is used all over the world for everything from simple websites to complex corporate applications. Our Content Management System is easy to install, simple to manage, and reliable. Once the Content Management System is installed and running, it is simple for even non-technical users to add or edit content, update images, and to manage the critical data that makes your company or organization go.

Anybody with basic word processing skills can easily learn to manage a site built by Koh Tao Ozone Co., Ltd. Via a simple, browser-based interface you will be able to easily add new press releases or news items, manage staff pages, job listings, product images, and create an unlimited amount of sections or content pages on your site. CMS is used all over the world to power everything from simple, personal homepages to complex corporate web applications!

Portfolio of recent web site designs{gallery directory=/gallery}Click on any of the above thumbnails and it will enlarge to 890 x 660 pixels. Browse the snapshots by clicking "Next" in the right hand corner or "Previous" in the left hand corner. To get back to this page click "Close" in the bottom right corner.

Satisfied clients is a must to sustain long term customer relationships "Koh Tao Ozone has created a very successful website for us, and once I knew what I was after were able to deliver it to me with in a very short period of time."

"I have also been given very helpful training by Charlott to update my website whenever I need. I am not the most computer literate person out there so this was certainly going to be a challenge but within a few short sessions Charlott taught me the basics."

Comment by Jim Donaldson, manager at Big Blue Diving - Koh Tao - Thailand
